Experience

Bbox Digital

Team Lead

Jan 24' – Current

As the Software Development Team Lead, I orchestrate a dynamic team, guaranteeing the delivery of top-notch solutions via collaboration with cross-functional teams and efficient project management. I prioritize strategic decision-making in line with business goals, conduct thorough project reviews, and actively participate in company-wide deliberations regarding future expansion. My proactive strategy involves maintaining an in-depth grasp of ongoing projects, fostering team synergy, and upholding impeccable standards through rigorous code reviews and mentorship.

Software Developer

Dec 21' – Jan 24'

Developing the front-end components for projects utilizing Webflow. Strategizing and executing CMS data architecture. Incorporating CMS data and backend solutions through JavaScript and Cloud Functions integration. Evaluating project specifications to select optimal technologies for achieving successful results.

Upwork

Webflow Expert

May 21' – Jan 24'

Designing and developing websites for clients utilizing Webflow. Executing diverse tasks in alignment with client specifications and desired deliverables.

Porter Airlines

Pilot

Aug 18' – Dec 21'

Performed 705 Operations as a First Officer on the Q400 aircraft, fulfilling scheduled flight duties for Porter Airlines.
